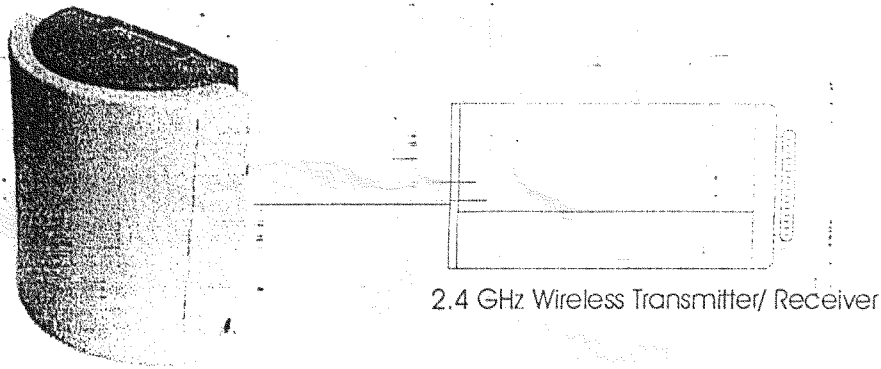
15-2400AH High Gain Direct Antenna



2.4 GHz Wireless Transmitter/ Receiver

◆ FEATURE :

Volume injection modeling to attain low cost.

Indoor and outdoor use.

Weatherproof and corrosion resistant.

Fast and easy installation & included swivel mount.

Articulating designing achieved high performance.

◆ APPLICATION:

Extend cellular PCS/ Wireless Coverage indoors

Extend PBX/ Wireless PBX within targeted zones

Provide voice/ Data transfer

Deploy in wireless local loop/ ISM and WLAN applications.

◆ SPECIFICATION:

Frequency Range: 2300~2500 MHz

Gain: 8.5dB

Impedance: 50 Ohms

Cable: RG58/U, 30CM

Distance: 50~100M (Open area)

Connector: SMA

Dimensions: 54 ㎜(L)×120 ㎜(W)×123(H)
